

Now you can garden for longer without any aches and pains!

These high quality stainless steel garden tools have a specially angled handle making them supremely comfortable to use. By keeping your hand and wrist at a natural angle they eliminate the strains and blisters that can be caused by conventional style garden tools. The green 'soft-feel' grip has a non-slip waterproof finish making the tools easy to grip even if you have wet hands. The highly polished finish of the metal part stops soil sticking to the tool making the tools easier to use with less cleaning too!

Easi-Grip Trowel

- overall length 300mm

Set comprises all four long reach tools plus an arm support cuff.

Reference code PLR-SET

Add-On Handles

You can have all the benefits of our PETA Easi-Grip® handles without buying new tools. By simply attaching our PETA Easi-Grip® Add-On Handles to your favourite hand tools you can make them more comfortable to use. You can use our arm support cuffs with Add-On handles too.

Add-On handles can also help prevent straining your back. By using two, set at right angles to each other (as shown in the photo) you can rake up leaves, or hoe, without twisting and bending.

For those who rely on the use of just one functional arm, by using an Add-On Handle fitted with an arm support cuff many tasks, such as sweeping, can be successfully achieved with comfort and control, increasing independence in the home.

These are just a few ideas, but we're sure you will think of many more uses for Add-On handles on sports equipment, in the workshop and around the home.

Code: PGT-AH
£16.50 (pack of two handles)

Arm Support Cuff

An Arm Support Cuff is available that can be plugged into the back of your PETA Easi-Grip® tool, allowing you to use the strength of your forearm. This has been designed to assist those with particularly weak hands and wrists. Constructed of plastic, with a soft-feel inner and sturdy metal rod it can easily be interchanged between all products in the PETA Easi-Grip® garden range.

Code: PGT-AS
£5.95

PETA [UK] LTD

innovating for independence

Peta (UK) Ltd is a family business and has been designing, manufacturing and supplying products for special needs since 1975 and in that time we have had some wonderful letters from customers who have enjoyed using Easi-Grip® products. We hope that you will be equally as delighted and look forward to hearing any comments you have.

In the following pages you will find a variety of kitchen knives, utensils, and garden hand tools that have been specially designed to make your life easier as well as some of the scissors from our extensive range.

Over the years we have earned a reputation for the high quality of our products. This is something that we will not compromise. We use only the highest grade materials in our manufacture and each design is extensively tested by professionals in the field before going to production.

Please don't hesitate to contact us if you have any questions about our products.
