

Comprehensive Assessment Kit

PCAK-1

Designed for use by Children’s Occupational Therapists, this Comprehensive Assessment Kit allows the therapist to assess their clients with the different types of adapted scissors to identify the most appropriate. Supplied in a handy carry case there are 15 scissors (including left-hand versions where appropriate) of 10 different styles. Guidance notes giving specific information on each type is provided.

Recommended to be used in conjunction with our popular book “Developing Scissor Skills” PDSS-B.
