

Self-Opening Scissors

PR-1/SO | PL-1/SO

Conventional style scissors with a hidden spring that will force the blades back to an open position after the grip has been eased. Ideal for children in a mainstream setting who need some extra assistance when using scissors. The scissors should be held in thumb and middle finger (for maximum strength) the index finger is placed outside the loop to provide guidance and control.

FEATURE	BENEFITS
NEW! Hidden spring	This is now integral to the blade and not visible whilst still providing the same self-opening action
Conventional style handles	Popular with children with special needs in a mainstream environment
Wide finger contact area	Ensures a comfortable grip which can be maintained throughout use
Colour coded handles	Easily identify correct pair to use: Blue handles = Right Hand Green handles = Left Hand
High quality stainless steel blade	Provides longevity and cuts through paper with ease
Blade guard	Fixes over the blades to provide safe storage

OUR OT FINDS THESE GOOD FOR...

- ✓ Older children who prefer a more conventional styling but are unable to manage opening and closing the scissors
- ✓ Poor grip strength
- ✓ Reduced motor control

RECOMMENDED FOR

Weak Grip
