

## Push Down Table Top Scissors

**CTT-5** | £9.25

These scissors are easy to use simply requiring a pushing down action on the "T" shaped handle. The spring will automatically reopen the scissors once the pressure is released.

Can be used either by maintaining the paper in a fixed position and "scooting" the scissors along with each cutting action; or by keeping the scissors stable (a Dycem® mat can help with this) and moving the paper towards the scissors.

NOW SUPPLIED IN  
HANDY ZIP CASE

### OUR OT FINDS THESE GOOD FOR...

- ✓ Weak hand and/or arm strength
- ✓ Poor motor control
- ✓ Tremor
- ✓ Joint protection in conditions like Arthritis
- ✓ Cost effective table top scissor
- ✓ Those with poor strength able to access/carry the scissor independently

FEATURE	BENEFITS
Discreet spring	This spring automatically reopens the scissors after every cut
Large "T" shaped handles	Designed for use on table-top to give good stability and leverage
High quality stainless steel blade	Provides longevity and cuts through paper with ease
Blade guard	Fixes over the blades to provide safe storage
<b>NEW!</b> Zip case	Attractive and handy for storing other small items such as pencil grips. Keeps the scissors safe when not in use.

### RECOMMENDED FOR

**Weak Grip**

**Tremor**

**Poor Hand Control**

## Long Loop Easi-Grip® Scissors

**LEG-3** | £6.75 | **LEG-5/5L** | £6.95

A range of ultra light weight self-opening scissors with the added benefit of a long loop handle which gives a more positive grip, preventing scissors twisting in the hand thereby aiding stabilisation. Designed for use by those with weak hands and wrists or those who are unable to use conventional style scissors due to swollen and painful joints.

LEG-5L

### OUR OT FINDS THESE GOOD FOR...

- ✓ Poor sensation, weak grip, hand strength and/or motor control
- ✓ Learning correct index finger placement
- ✓ Motor planning difficulties. For example, Dyspraxia
- ✓ Those with joint hypermobility

LEG-5

LEG-3

LEG-1

FEATURE	BENEFITS
Light weight	Does not fatigue user
Continuous loop handle	Automatically reopens scissors when pressure released
Additional long loop handle	Aids finger isolation using middle, ring and little finger for strength whilst index finger is used for guidance. Alternatively for those with very restricted movement, fingers can be placed over the long loop handle
High quality polymer	Does not snap and retains spring action
Colour coded handles	Easily identify correct pair to use: <b>Blue handles</b> = Right Hand <b>Green handles</b> = Left Hand
High quality stainless steel blade	Provides longevity and cuts through paper with ease
Blade guard	Fixes over the blades to provide safe storage
Wide finger contact area	Ensures a comfortable grip which can be maintained throughout use

### RECOMMENDED FOR

**Weak Grip**

**Poor Hand Control**

## Long Loop Scissors

**LPR-5 | LPL-5 | £5.45**

Designed with an extended loop to give increased strength and control over the cutting action. Assists with poor motor control, including those with Dyspraxia and similar conditions. (A spring assisted version is also available, please see LPR-5/SO and LPL-5/SO).

LPL-5/L

LPR-5

FEATURE	BENEFITS
Long loop handle	Provides superb control of cutting action using middle, ring and little finger for strength whilst index finger is used for guidance
Wide finger contact area	Ensures a comfortable grip which can be maintained throughout use
Colour coded handles	Easily identify correct pair to use: <b>Blue handles</b> = Right Hand <b>Green handles</b> = Left Hand
High quality stainless steel blade	Provides longevity and cuts through paper with ease

### OUR OT FINDS THESE GOOD FOR...

- ✓ Weak grip/strength
- ✓ Poor motor control
- ✓ Training placement of the thumb while continuing to provide the benefit of the long loop handle
- ✓ Introducing the skill of opening and closing the scissors
- ✓ Those who are able to open and close the scissors but become confused about finger placement in regular scissors

### RECOMMENDED FOR

**Weak Grip**

**Tremor**

**Poor Hand Control**

## Self-Opening Long Loop Scissors

**LPR-5/SO | LPL-5/SO | £7.25**

Designed with an extended loop to give increased strength and control over the cutting action with the added benefit of a discreet spring which automatically reopens the scissors, allowing the user to concentrate on manipulating the paper and directing the cut.

### OUR OT FINDS THESE GOOD FOR...

- ✓ Weak grip/strength
- ✓ Poor motor control
- ✓ Training placement of the thumb while continuing to provide the benefit of the long loop handle
- ✓ Introducing the skill of opening and closing the scissors
- ✓ Those who are able to open and close the scissors but become confused about finger placement in regular scissors

FEATURE	BENEFITS
Fitted with discreet spring	Reopens scissors after every cut
Long loop handle	Provides superb control of cutting action using middle, ring and little finger for strength whilst index finger is used for guidance
Wide finger contact area	Ensures a comfortable grip which can be maintained throughout use
Colour coded handles	Easily identify correct pair to use: <b>Blue handles</b> = Right Hand <b>Green handles</b> = Left Hand
High quality stainless steel blade	Provides longevity and cuts through paper with ease
Blade guard	Fixes over the blades to provide safe storage

## Easi-Grip® Scissors

**PEG-3** | £6.25 | **PEG-5/5L** | £6.50

A range of ultra light weight self-opening scissors.  
Ideal for special needs due to weak hands or those who are unable to use conventional style scissors.

FEATURE	BENEFITS
Light weight	Does not fatigue user
Continuous loop handle	Automatically reopens scissors when pressure is released
No finger loops	Can be used with thumb and fingers or palm, requires only a gentle squeeze to use
High quality polymer	Does not snap and retains spring action
Colour coded handles	Easily identify correct pair to use: <b>Blue handles</b> = Right Hand <b>Green handles</b> = Left Hand
High quality stainless steel blade	Provides longevity and cuts through paper with ease
Blade guard	Fixes over the blades to provide safe storage
Wide finger contact area	Ensures a comfortable grip which can be maintained throughout use

### OUR OT FINDS THESE GOOD FOR...

- ✓ Weak grip or poor hand strength
- ✓ Difficulty isolating individual finger movements
- ✓ Those with swollen hands
- ✓ Those changing hand dominance after stroke or injury

**Weak Grip**

### RECOMMENDED FOR

## Dual Control Teaching Scissors

**PTR-5 | PTL-5 | £6.25**

Developed under consultation with Occupational Therapists to assist the client who:

- **Has poor visuo motor co-ordination**
- **Lacks the strength to complete the cutting action**
- **Has a tremor and cannot place the scissors at a given starting point**
- **Has poor background/foreground differentiation.**

PTL-1

PTR-1

PTL-5

PTR-5

The client uses the loops furthest from the blade, whilst the O.T. places their fingers over the client's hand and through the loops nearest the blade to assist with placement, guidance and strength.

FEATURE	BENEFITS
Double loop handles	Allows therapist and client to simultaneously complete the cutting action
Wide finger contact area	Ensures a comfortable grip which can be maintained throughout use
Colour coded handles	Easily identify correct pair to use: <b>Blue handles</b> = Right Hand <b>Green handles</b> = Left Hand
High quality stainless steel blade	Provides longevity and cuts through paper with ease

### OUR OT FINDS THESE GOOD FOR...

- ✓ Re-education of scissor use
- ✓ Supporting clients who are unable to hold the scissors independently
- ✓ Demonstrating scissor use to those who find it difficult to follow instructions
- ✓ Encouraging bilateral hand use
- ✓ Reduced grip strength and motor control
- ✓ Supporting those with a visual impairment or a tremor
- ✓ Developing confidence in reluctant scissor users

### RECOMMENDED FOR

**Weak Grip**

**Poor Hand Control**

**Tremor**

**Visual Impairment**

## Mounted Table Top Scissors

**PTT-5/PB** | £22.00 | **PTT-5/WB** | £34.50

Designed for use by those with very limited strength and control, or for use one-handed. Either with a brightly coloured green plastic base which provides stability whilst keeping the product lightweight, or a solid wooden base to give ultimate stability. Simply push the paper or card along the base until in position, then push down the "T" shaped handle to cut. The hidden spring will automatically reopen the blades in readiness for the next cut. It is often advantageous to use the more dextrous hand to manipulate the paper whilst the more affected hand works the scissors.

### OUR OT FINDS THESE GOOD FOR...

- ✓ Weak hand or arm strength
- ✓ Poor motor control
- ✓ Tremor
- ✓ One handed operation.  
For example, those with Cerebral Palsy or Congenital Limb Deficiency
- ✓ Stable base and option of using the forearm if joint protection of the fingers is necessary. For example, those with Arthritis.

FEATURE	BENEFITS
Discreet spring	Automatically reopens the scissors after every cut
Large "T" shaped handle	Provides ease of use and good leverage
High quality stainless steel blade	Provides longevity and cuts through paper with ease
Plastic base with rubber feet	Lightweight yet stable
Wooden base with Dycem® strips	Ultimate stability
<b>NEW!</b> Zip case	Attractive and handy for storing other small items such as pencil grips. Keeps the scissors safe when not in use.

### RECOMMENDED FOR

**Weak Grip**

**Poor Hand Control**

**Tremor**

**One Handed**

## Mini Easi-Grip® Scissors

**MEG-3** | £4.25

A pair of ultra light weight self-opening scissors. Designed for use by those with weak hands or wrists or who are unable to use conventional style scissors due to swollen and painful joints, but actually just a very handy pair of scissors that no home (or handbag) should be without!

MEG-3	FEATURE	BENEFITS
1	Continuous loop handle	Easy to use even with swollen joints, finger isolation not necessary
2	Self-opening action	Re-opens scissor when pressure is released reducing effort required
3	Fine pointed blades	Gives precise results for fine / intricate cutting
4	Small size	Can be used in palm of the hand and stored in handbag, sewing box, bathroom cabinet
5	Blade guard	Protects blades and provides safe storage when not in use

### RECOMMENDED FOR

**Weak Grip**

As there are no finger and thumb loops less bias is put on the blades when cutting, which means they can be used in the left hand too!
