innovating for independence

OMNI Adaptive Non-Slip, Self-Righting Bowl

- Easy to hold angled rim with discreet sensory bumps
- Clever weight design which “self-rights” if knocked
- Impressive 400ml / 14oz capacity
- Anti-slip silicon feet
- Food standard, 100% BPA free premium melamine
- Dishwasher safe
- Excellent insulation for temperature stability
- Shatterproof - virtually unbreakable
- Perfect for anyone with assistive dining care needs
- Great for enabling continued independence

The weighted “self-righting” feature is key to the adaptive qualities of this long-lasting melamine bowl, enabling it to come back to an upright stationary position if wobbled. The lightweight design combined with wide lip rim incorporating sensory bumps aid with carrying and holding, either single or double handed. Vibrant contrast coloured rim assists with food recognition and aids those with visual impairments. Discreet silicone feet prevent surface slipping and reduces potential mess and breakages. Ideal for elderly or anyone with a grip difficulty. Encourages independence and dignity when eating.

SIZE: Diameter 130mm, Height 18mm
