

THE NIMBLE

A clever cutting tool designed for use with just one finger, safely and effectively!

A finalist product in the National Inclusive Technology Challenge Prize, this one finger cutting tool is built to last which means you won't need a replacement anytime soon. Safe and pocket-sized, it is ideal to take with you in your bag or pencil case. Ideal for opening parcels, envelopes, food packets and many other things. Cutting has never been so simple - the possibilities are endless!

HOW TO USE:

1. Place on finger with blade pointing down
2. Hold item to be cut with free hand or place on non-slip mat
3. Apply pressure and draw a line to make a cut with your finger at a 45 degree angle

FEATURE	BENEFIT
Non-biassed cutting blade	Suitable for use by left or right-handers for simple or accurate cutting out
Safe blade profile	Makes it practically impossible to cut yourself and can be safely used by adults and children with limited hand dexterity
Zirconia ceramic blade	Much harder and longer lasting than steel, no need for replacements

RECOMMENDED FOR:

Weak Grip	Poor Hand Control	Visual Impairment	One Handed

CODE: PAP-NIM
